

# Replace Your SEO Agency with AI

How to run a comprehensive, 7-agent SEO audit in exactly 3 minutes.

# The Black Box Agency Model is Broken.

## High Costs

\$2,000 to \$10,000+ per month for basic services.

## Slow Velocity

Takes 2-4 weeks just to get a basic audit.

## Zero Transparency

You receive a confusing, cookie-cutter monthly PDF.

## Outdated Playbooks

Still optimizing for ten blue links while user search behavior fundamentally changes.

# People aren't just Googling anymore. They are asking AI.

Q The Old Way:

Optimizing purely for  
traditional ten blue links.

**ChatGPT** 

**Perplexity** 

**Claude** 

**Google AI**   
**Overviews** 

**The New Frontier:** Optimizing for Answer Engines.  
Your customers are asking AI for direct  
recommendations.

**Key Insight:** Traditional SEO agencies ignore AI search engines.  
You need a unified strategy for both traditional SEO and modern  
GEO (Generative Engine Optimization).

# The Value Disconnect: 90% of the value for 1% of the cost.

	SEO Agency	Claude Code + Skill
Monthly Cost	\$2K-\$10K+	\$20 (Claude Pro)
Audit Speed	2-4 Weeks	3 Minutes
AI Search Strategy	Rarely Included	Built-in (GEO/AEO)
Transparency	Black Box PDF	Full granular breakdown
Contracts	6-12 Months	Cancel anytime

# Meet the **AgriciDaniel/claude-seo** Skill.

One command spins up 7 parallel AI subagents to crawl your entire site simultaneously.

# Comprehensive Results in 3 Minutes.

## Health Scores

Granular breakdowns of Technical (target 80+), On-Page (75+), and Content (70+).

## Keyword Strategy

Identifies quick wins (ranks 5-20), competitor content gaps, and search intent mismatches.

## Content Analysis

Individual E-E-A-T (Experience, Expertise, Authoritativeness, Trustworthiness) scoring per page.

## AI Search Readiness

Evaluates AI crawler access, citability scoring, and brand mentions across platforms like Reddit and YouTube.

# Your 3-Step AI Implementation

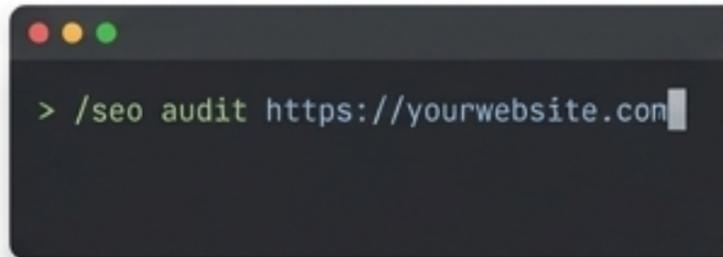

# 1

## Step 1: Install

Get Claude Pro. Clone the skill from GitHub into your local terminal environment.

# 2

## Step 2: Audit

```
> /seo audit https://yourwebsite.com
```

Watch the 7 parallel agents go to work.

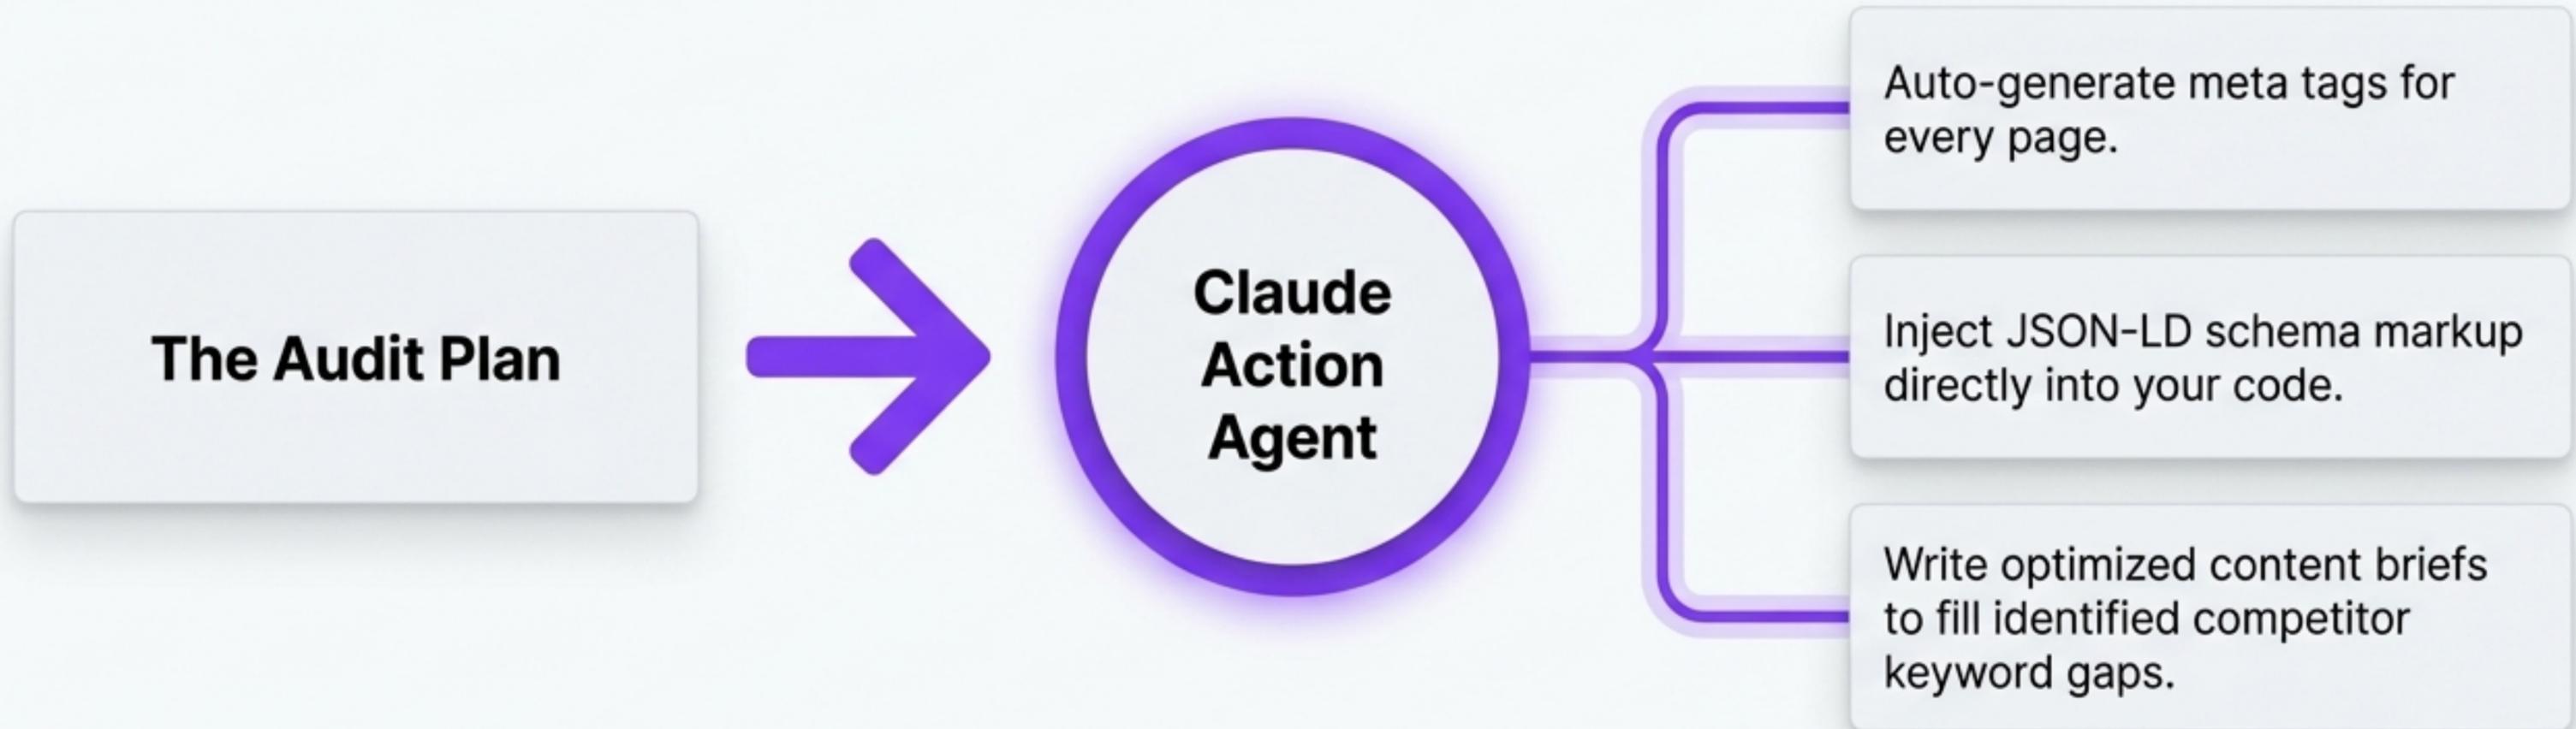

# 3

## Step 3: Review

Analyze your health scores and generated AI search readiness plan.

# Don't just audit. Automate the fixes.

Feed the audit plan back into Claude and prompt it to build an agent that implements the highest-priority changes.

```
>_ Based on the SEO audit results, build me an agent that implements the top 10 highest-priority fixes...
```

# Scale with Live Data (MCP Integrations)

Plug the skill directly into industry-standard live data feeds via Model Context Protocol (MCP).

## DataForSEO

Live SERPs & keyword volumes.

## Semrush

Competitor intel & position tracking.

## Google Search Console

Real click & impression data.

## PageSpeed Insights

Core Web Vitals scoring.

# Your Next 30 Days.

## **Week 1: Foundation**

Install skill, run audit, and fix critical crawl errors (broken links, missing sitemaps).

## **Week 2: On-Page Quick Wins**

Optimize title tags, fix H1 hierarchy, and add schema markup.

## **Week 3: Content Upgrades**

Address the top 3 keyword gaps and update your lowest-scoring E-E-A-T pages.

## **Week 4: AI Search Visibility**

Build brand presence on platforms AI systems cite (YouTube, Reddit) and generate an llms.txt file.
